PROFESSIONAL SUMMARY

Motivated and detail-oriented Flutter Developer passionate about developing cross-platform mobile and web applications using Flutter and Dart. Skilled in building responsive and user-friendly UI, integrating Firebase services, REST APIs, local storage solutions, and implementing real-time application features. Familiar with state management using Provider and setState, along with Git/GitHub workflows and modern UI development practices. Eager to apply technical and problem-solving skills to real-world projects and contribute to a dynamic development team while continuously learning modern Flutter technologies.

TECHNICAL SKILLS

- **Programming Languages:** Dart, Java
- **Frameworks & Tools:** Flutter, Firebase, REST APIs, GitHub, VS Code, Android Studio
- **State Management:** Provider, setState
- **Integrations:** RESTful APIs, Push Notifications, Voice Assistant Integration, Audio Streaming
- **Databases:** Firebase Firestore, MySQL, Hive
- **Platforms:** Android, Web
- **Soft Skills:** Good Communication, Quick Learner, Problem-Solving

PROJECTS

AIRADIO – AI-Powered Online Radio Streaming App

Description:

Developed a cross-platform Flutter application for live online radio streaming with AI-powered voice command support. The app enables users to stream live radio stations, switch channels dynamically, and control playback using Alan AI voice commands. Implemented responsive UI design, real-time audio playback, REST API integration, and background audio handling for a seamless streaming experience across Android and Web platforms.

Technologies Used: Flutter, Dart, REST APIs, JSON Parsing, Alan AI Voice Assistant, Audio Streaming, Provider, setState, VS Code, GitHub, Flutter Web

BMI Calculator App

Description:

Developed a cross-platform Flutter application for calculating Body Mass Index (BMI) with a clean and responsive user interface. The app allows users to input height and weight values and instantly calculates BMI along with health status categories such as Underweight, Normal, Overweight, and Obese. Implemented responsive UI design, input validation, and state management to ensure smooth performance across Android devices.

Technologies Used: FIFlutter, Dart, setState, Responsive UI, VS Code, GitHub

Photo Upload App

Description:

Developed a cross-platform Flutter application integrated with Firebase Storage for selecting and uploading images in real time. The app enables users to pick images from the device gallery and upload them securely to Firebase Cloud Storage. Implemented Firebase integration, image picker functionality, and state management for smooth and responsive user experience.

Technologies Used: Flutter, Dart, Firebase Storage, Firebase Core, Image Picker, setState, VS Code, GitHub

CERTIFICATION

Tap Academy

Completed a course in Core Java, Object-Oriented Programming (OOPS), and Collections Framework.
Acquired practical experience in frontend development using HTML, CSS, and JavaScript.

EDUCATION

B.E. Electronics & Communication Engineering
Anna University Regional Campus, Coimbatore | Anna University
Year of Passing: 2025 | CGPA: 7.9 / 10
